Acknowledgement

Receipt is acknowledged of the Amendment filed March 17, 2005.

EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. John Sensny on March 29, 2005.

The application has been amended as follows:

Claim 22, line 1, "Claim 21" has been deleted and replaced by --Claim 20--.

Reasons for Allowance

Claims 2-8 and 10-22 are allowable over the prior art of record.

The following is an examiner's statement of reasons for allowance: the best prior art of record, Lamphier et al., taken alone or in combination of other references, does not teach or fairly suggest a method or an application specific integrated circuit comprising, among other things, applying a third signal to the input/output cell, during a defined period of time, to prevent the input/output cell from receiving the second signal until the value of the second signal becomes stable, as set forth in claim 17; means to apply a third signal to the input/output cell, during a defined period of time, to prevent the input/output cell from receiving the second signal

Art Unit: 2819

until the value of the second signal becomes stable, as set forth in claim 18; when the input signal of the driver changes in a predetermined manner, applying the second signal to the driver of the input/output cell to adjust the impedance of said driver, as set forth in claim 19; and means to release the second signal from said latches and to apply the second signal to the driver of the input/output cell to adjust the impedance of said driver in response to the input signal of the driver changing in a predetermined manner, as set forth in claim 20.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
